iPhone Liquid Silicon Case

“WCS-1904-1” iPhone Liquid Silicon Case

Description :

1. Material: Liquid silicon
2. Technology: Mold injection
3. Thickness: 1.0MM
4. Key Points:
 - Made with natural liquid silicon material. It has a smooth surface layer, scratch-resistance, anti-fingerprint tracing, and drop protection.
 - The inside is designed with a microfiber cushion and the outer design contains a 0.3mm lip that raises above the screen slightly. This protects the phone screen & camera from damage.
 - The liquid silicon exterior is contains a silky & soft coating cover, which provides great protection and a smooth finish.
 - Made from environmental liquid silicon, therefore no harmful substances were used.
5. Available for iPhone XS/XR/XSMAX
